

## Product Introduction

RZX-UH01 is used for vehicles entering and exiting management and is attached to the front windshield. With features of High temperature resistance, Anti-UV and tamper proof, Long read and write distance etc. Mainly used in community, highway, port terminal vehicle access management.

## Parameters

Model No.:	RZX-UH02
Frequency:	860-960Mhz
Chip Type:	Alien H3
Memory:	EPC:96Bit , TID:96bit, User memory: 512bit
Protocol:	ISO18000-6C,EPC Classic1 Gen2
Read/Write Range:	3-6M
Size:	100*23mm (Can be customized)
Material:	PET+Paper
Data Retention:	10 years
Read/Write Times:	100000 times
Working Temperature:	-20°C~+80°C
